BerryVine Companion™

Plan routes, view maps, find points of interest from your BlackBerry™

About the product

BerryVine Companion™ is a lightweight solution for route-planning, map viewing and looking up points of interest for BlackBerry™ users. By using BerryVine Companion, BlackBerry users finally have a simple way of getting the geographical information they need, optionally assisted by a GPS antenna. All in one simple package that is easy to operate with almost no learning time. BerryVine Companion is another product in the BerryVine product range, which consists of innovative quality BlackBerry products for productivity and entertainment.

BerryVine Companion uses Geographical data supplied by Locatienet.nl. This data is of the highest quality and offers detailed maps for all the covered regions. Using Locatienet's data BerryVine Companion can offer door to door route plans for navigational purposes and accesses a Points Of Interest databases containing thousands upon thousands of interesting facilities and locations.

Advantages

- ⇒ Lightweight: requires only a BlackBerry and no additional hardware.
- ⇒ Use an optional GPS antenna to find your exact location.
- ⇒ Find nearby locations of interest with ease and save time.
- ⇒ Plan routes from the palm of your hand and get detailed step by step instructions on how to get to your destination.
- ⇒ View maps to find your way around or study locations and pan, zoom in or out at will.
- ⇒ Save time on figuring out routes and locations and plan them straight away.

Free trial

BerryVine Companion is sold on a try-before-you-buy basis and includes a free 7-day trial period. Freely use this time to test the application and see if it fits your or your organizations needs!
